

- Daily use prevents formation of limescale deposits
- Dries up spotless – no need for wiping off
- Ideal for marble, enamel bathtubs, etc.
- Very economical in use

Product

Universal cleaning agent for use on all washable surfaces and sanitary installations.

Coverage

For spray-cleaning: 1 lid per 2 litres of water.

Routine cleaning: ¼ - ½ dl per 10 litres of water.

Packaging

1 litre container

Applications

Removes deposits from soap scum and dirt on e.g. ceramic tiles and marble, sanitary installations, and enamel bathtubs. Regular use prevents formation of limescale deposits.

Very suitable for acid sensitive surfaces.

Instructions for use

Alfix Marble Cleaner can with advantage be used in a spray.

Dosage: 1 lid per 2 litres of water. Spray the solution onto the still wet surface in e.g. shower enclosures upon showering. After a short working time, rinse off with clean water.

For routine cleaning, add ¼ - ½ dl per 10 litres of water.

Apply and wash well into the surface. After a working time of 5 – 10 minutes, rinse with clean water.

Test

Approved by the Danish Veterinary Department for use in meat processing industries authorized by the Danish Ministry of Food, Agriculture, and Fisheries provided that the product is used in strict accordance with manufacturer's instructions.
